

Chemical management series Module II (conducted in myanmar language)

FRIDAY
24 May, 2024

FEDERATION
BALLROOM,
MERCURE YANGON
KABA AYE, YANKIN TSP
YANGON

TIME
09:30am - 4:00pm

WORKSHOP CONTENTS

DURATION : 1DAY WORKSHOP
PARTICIPANTS : EHS MANAGERS , COC REPRESENTATIVES
AND OTHER INVOLVED IN CHEMICAL MANAGEMENT
CLASS SIZE : 30-40 PARTICIPANTS

- Hazardous and Non Hazardous Wastes Management
- Chemical Management documentation system (KPI , NPO and Waste Inventory)

OVERVIEW

To enhance the employee awareness of hazardous and non-hazardous waste management issues, and to dispose of chemical hazardous waste safely without affecting the environment, while saving unnecessary costs by tracing the waste through a systematic factory documentation system.

This training focused on how to implement effective chemical management documentation systematically at factory level accordingly to legal requirements.

BENEFITS

- Minimize environmental impact through proper waste management practices, promote safety disposal procedures to reduce the risk and decrease waste disposal expenses, leading to cost savings.
